

Touch Points - Sandy Mack

10/14/20

#### ALPI CAT

I spoke with Marilyn Monroy when I stopped by. She said they have an average of 27 youth who attends daily. 13 youths were present when I stopped by at 4:30p. Safety guidelines were being followed. Anna Williams no longer works for the CAT program and no replacement has been hired for the position she vacated. I asked Marilyn was she applying for the position, but she said the position has not been posted. However, she would love to apply for it. I reminded Marilyn of the quarterly report that due next week- Myrna was notified by email.

#### Future Generation

Youth were practicing on musical instruments when I stopped by after 5pm. Joseph Richardson has been going to the BGC at Percy Peak gym to have the youth learn how to play the drums for the drumline. Next Spring, he is planning to have a drumline event that will feature the youths he has been working with, local school drumlines, and others to perform. I reminded Joe of the quarterly report that's due 10/20/20.
